THE COURTS.

Proceedings Before the Various Legal Tribunals Vesterday.

OPINION IN THE LEMONT CASE. Justice Cox in the court in general term yesterday delivered the opinion in the case of Lemont against The Washington and Georgotown Railway company, reversing the judgment below and directing the entry 'judgment satisfied" to stand. This suit was brought for damages for injuries sustained, and a verdict of \$15,000 having been tained, and a verdict of \$15,000 having been obtained plaintiff compromised with the company for \$2,000 and gave an order to dismiss the suit, which was then on appeal. When this became known plaintiff's counsel moved that this order he set aside and that the company be directed to pay them 33\(^1\) per cent. of the judgment, and Judge MacArthur granted both motions and an appeal was taken. The court said that while the bar should be protected, yet all precented and authority was against making the order. The understandagainst making the order. The understand-ing between counsel and client is an agree-ment, but not a contract, and proceeding by common law was the remedy.

SUBBENDERED BY HIS BONDSMAN. Thomas R. Callahau, who was indicted in May last for opening lotters while a letter carrier, was surroudered by his surety, Mr. John Webster. Upon his first arrest, Callahan was tried before Commissioner Mills on a charge of opening letters addressed to M. A. Dauphin, of New Orleans, La., and New York, and was held in bail of \$1,500. Shortly offer, judictment his former bondsman surafter indictment his former bondsman sur-rendered him and he gave new bonds, with Mr. Webster as surety, and not long after-ward Callahan disappeared. Some few weeks ago an account was published of Callahan having, in Chicago, walked up to a police-man and surrendered himself as a fugitive from justice, and Mr. Webster procuring a bailpiece sent it out and Callaban was brought back and yesterday was committed

THE STRUCTURE OF THE EARTH. Interesting Lecture on "Geology" by

Prof. Gunning in the Lecture Room of the Y. M. C. A. The lecture room of the Young Men's Christian association was well filled by a select audience last night to listen to the first lecture by Prof. Gunning, of Boston. Prof. Gunning is an excellent speaker, and his sublect, "Geology," was handled with decided skill. Throughout the lecture the audience

listened attentively, and frequently inter-rupted with applause.

The speaker sketched the structure of the earth's crust and showed by what is going on to-day that one class of rocks was born of heat, that another was formed under oceans from the ruins of older rocks. Creation walks hand in hand with destruction. He showed how the remains of bygone creations have been preserved in rocks formed under water.

In tracts of finest heat All worlds began.

Our world gained a thin crust. An ocean shrank, wrinkled, and dry land appeared. The first land recorded in the history of the earth stood where America now stands. It world work and our absolute the property of the carth stood where America now stands. It work down and our absolute was formed. went down, and our America now stants. It went down, and our America was formed, atom by atom, on the grave of a drowned America. The growth of the continent was sketched from two nuclei, one on the site of the Alleghenies and the other from the site of

the Aleghenies and the other from the site of the Sierras. The eastern segment grew from ruins of a land we may call Atlantis; the western segment from Pacifis, The successive stages of growth were de-scribed and delineated, and the leading types of life, as they appeared from time to time, were sketched on the blackboard. Eastern America grew westward; western America grew eastward, through a Mediter-ranean sea. At last the bed of that sea rose, ranean sea. At last the bed of that sea rose ranean sea. At his the odd of that sea rose, spread out here and there into piains, and domed up here and there into mountains. The twain Americas became one, the domes of the Rocky mountains are the signet of the marriago ring. By this analysis of the continent it was shown that the rocks, formed under oceans and lakes, have a thickness of seventeen miles. Taking the rate of sedimentation from the British channel, it would require about 300,000 years for the formation of these rocks. Three hundred million years may have

rolled over the old, old globe since the foundations of our America were laid in sea mud on the grave of an older America.

The Feast of Tabernacles.

To-day being the fifteenth day of Tishri, the seventh month of the Jewish year, which is a lunar year, the Hebrew people all over the world eelebrate it in accordance with the law as contained in Lev. 23, 34, as the first day of the feast of tabernacies, which lasts eight days. It commemorates the tent life of the Israelites during their forty years' wan-derings through the desert, and it partakes essentially of the character of a harvest feast, although not celebrated or designated as such. Branches of palm trees and lemons, characteristic of the treasures of the land of promise, are carried by the faithful to the house of worship, and blessings pronounced

over them.

On the eighth day of the feast of taberna-cle the time honored custom of concluding the reading of the cycle of the Mosaic law, as apportioned for the fifty-two weeks of the year, is celebrated in addition, the day being distinguished by the designation of Simchas

THE PRIZE DRILL.

The Washington Cadets Win the Cup Contested for by the Colored Militia of the District.

Upward of 2,500 people assembled yesterday afternoon at Athletic park to witness the competitive drill between the different companies of the district colored militia for the John W. Boteler cup. The judges, Capt. S. E. Thomason, Col. J. O. P. Burnside, and Capt. Burton R. Ross, were on the stand promptly at 3 o'clock, and after summoning the captains of the several companies and giving them instructions the places were drawn for The Butlet. Zowers were drawn for. The Butler Zouaves obtained first place; Capital City Guards, company B, second; company A, Capital City Guards, third: Lincoln Light Infantry, fourth, and Washington Cadets, fifth. Each company was allowed the privilege of drilling with thirty two men rank and the and with thirty two men, rank and file, and thirty minutes' time given. The bugic sounded exactly at 3:14 o'clock, and the Butler Zouaves, Capt. C. B. Fisher commanding, entered for the contest. The manual of arms, the school of the company in all its various evolutions and maneuvers, both by company and platoon, were executed. Every good point made was cheered and the false moves were jeared at by the immense crowd present, many of them being old soldiers. The Capital City Guards, company B. Capt. William P. Gray; company A. Capital City Guards, Capt. Thomas S. Kelly, and the Lin-coln Light Infantry, Capt. William Cornell, followed, drilling by the same schedule, and being subjected to alternate cheers and laughter. The moon was shining brightly when the bugle sounded for the Washington Cadets, Capt. C. A. Fleetwood, commanding, were ordered up, and the band played. "Wait Till the Clouds Roll By." They approached the judges' stand, and from the time the first order was executed the superiority of this organization was patent to the crowd who swarmed about the judges' stand in such a manner that the efforts of the guards and police to put them back were in vain.

The company worked like an automaton, and when the thirty minutes had expired the different companies were formed about the judges' stand, and in a few appropriate words Capt. Thomason presented the cup to Capt. Fleetwood, who acknowledged the honor in a brief but neat speech, and, anid the playing of the band, ringing of the bell, and the beat of drums, and demoniac yells and hurrals, the companies marched off the grounds. The order of merit as decided by the judges is as follows: First, Washington Cadets, Capt. C. A. Fleetwood; second Capital City, Canada Company. Second, Capital City Guards, company A, Capt. T. S. Kelly; third, Capital City Guards, company B, Capt. W. P. Gray; fourth, Lincoln Light Infantry, Capt. Wm. Cornell; fifth, Butier Zouaves, Chpt. C. B. Fisher, The winners of the prize gave a hop at Green's hall or Pennsylvania avenue, new last. nall, on Pennsylvania avenue, near Eighteenth street northwest, last night. The hall was decorated with flags, and on a stand was to be seen the cup for which they had worked so successfully. Refreshments were in abundance, and dancing was indulged in until a late hour.

THE SUFFRAGE MOVEMENT.

Formation of a Suffrage Club in East

Washington. The East Washington Suffrage club was organized at Washington hall last night, About thirty gentlemen were present. Mr. Alberto Campbell was elected president; Lemuel Bursley, secretary; Richard Rothwell, sr., vice president; George Rider, treas-urer, and M. Robinson, sergeant-at-arms. Upon taking his seat Mr. Campbell said that the district was a little island of monarchy in a great sea of freedom. The 200,000 citizens of Washington are subjected to the rule of a triumvirate of petty tyrants, and are raising their voices for those rights which belong to them by the birthright of blood shed upon them by the birthright of blood shed upon the fire-glared and smoke-panoplied fields of the revolution. The constitution is the bed rock upon which we stand, and congress can-not afford to ignore the appeals of hundreds of thousands of American citizens appealing for their rights. The opposition to this movement is puny, and will be speedily over-come before the avalanche of right, which is might. Other meetings will be held at short intervals.

The car was used as a cook shop for employes on freight trains, and it is supposed caught fire from the stove. Damage, about \$200.

A Mason's Affatr.

I have been troubled for a number of years with kidney and bladder difficulty; at times have suffered a great deal with the weakness caused by the inflammation and intense pains in the back and loins. I tried many medicines that were recommended, but none of them seemed to reach my case until one day I related my case to one of our druggists here in Auburn. Mr. Smith was very urgent that I should try Hunt's Remedy, for he knew of many who had used it with wonderful success. I purchased a bottle and used it, and found a good deal of benefit, and commenced to improve rapidly, and the pains in the back were relieved. I gained strength and vitality, and after using four bottles I have been completely cired, and have recommended. completely cured, and have recommended it to others, and give this statement voluntarily, believing that, from my own case, Hunt's Remedy is all that is recommended, and you can use this as you choose for the benefit of the public. LABOR A BURDEN. For a number of years my wife has been a severe sufferer at times with indigestion and kidney and liver troubles. She had such severe pains in the back that she at times became very much debilitated, and the least labor was a burden. I feared that it would terminate in Bright's Disease, as they were the symptoms. She had no appetite at times. She tried several medicines, but only received temporary relief from any of them until she commenced using Hunt's Remedy, which was recommended to us by druggist Smith, of Auburn, saying that it had been used by a good many with the greatest success for the cure of kidney, liver, and bladder troubles. She commenced using it, and found by the use of only one bottle she had been relieved of the Col. Sprague to-day! Col. Sprague to-day! and could rest well and attend to her house-

GURE AND UNFAHING CURE FOR ALL
forms of malaria. What Rev. T. J. You, editor of
The Pulpit and Parsonag," says: "Having been
afficied with malaria for years, and having taken
quinine until my horves began to be affected, I began
to try so-called specifics for malaria of every kind,
only to be desaporited. I was assured by a business
main with whom I have daily intercourse that if I
would take PROF. MORSE'S AGUE MASSE'S according to directions they would cure me. I am now
prepared to say that I regard them as Infinitely superfor to quinine, and decidedly better than anything
I have ever tried." A trial will cost but little. You
